

# Fifth & Sixth Grade Notes

(and 7/8 Grade Math Notes, too)

September 24, 2021

Dear Families,

Conferences begin next week. Many of you will find your conference time in today's papers. If there are conflicts, let me know and we can come up with something that works better. The last few conferences will be scheduled very soon (hopefully by the time you are reading this.)

In social studies, we took a quiz on some geography and map concepts. We continue learning about culture and globalization.

We are nearing the end of our book and should finish with the reading next week. With MAPs testing, we have taken a break from grammar and started to really focus on our reading and answering questions completely. Vocabulary, spelling, and AV words are found on the back. There will be a quiz on these words next Friday.

We will be testing over Unit 1 in theology next week. There will be plenty of review and time to study. Thursday we helped replace the Gather hymnals in the church for 30 minutes toward the service hours students need.

Math 5 tested on Module 1. Now we move on to division.

Math 6 is comparing rational numbers in decimal and fraction form. We should be testing next week.

Math 7 has also finished their first module and will test next week.

Math 8 tested on translations, rotations, and reflections and will focus on enlarging and reducing polygons next.

Algebra is graphing and writing equations of parallel and perpendicular lines.

Peace,

Mrs. Sullivan
