Mrs. Kemp's 2nd Grade

August 30-September 2, 2021

OUR LEARNING

Things are rolling right along in 2nd grade! The students are busy learning the routines of the classroom and getting back into learning mode. I'm excited for the year ahead with this group!

In reading we will be using the Superkids program. It covers spelling, phonics, grammar, fluency, comprehension, and writing. We will take our first spelling test on Friday, September 10. The words will be in your student's red folder.

In religion we are studying the seven Sacraments, as well as learning two new prayers.

OUR LEARNING *(con't)*

In math we are starting the year by reviewing different strategies for addition and subtraction. Soon your student will have math fact homework each week to help work on memorization.

In science we are learning that all things are made of matter.

Earbuds

Please send an inexpensive pair of headphones or earbuds for your student to keep at school. We use these daily with our computers. Thank you!
