

Fifth & Sixth Grade Notes

(and 7/8 Grade Math Notes, too)

November 5, 2021

Dear Families,

Our class aquarium is being overrun with baby snails! If you have a fish tank at home and would like to have one (or many!) baby snails, send in a small container and we will happily share! Last year, my one snail kept our tank clean the entire year.

Report cards will be ready for viewing Monday. Let me know if you'd like a paper copy sent home.

In social studies, we tested on the Stone Age and completed a delicious archaeology lab. Ancient Mesopotamia is next.

We learned about God's covenants. We celebrated All Saints' Day Monday with Mass. Our parish pen letters will be mailed next week.

Students are enjoying our newest class read. *Counting by 7s* vocab, spelling, and AV words are found on the back. There will be a quiz on these words next Friday. Students will be participating in the Knights of Columbus Spelling Bee on December 2, 2021.

Math 5 is writing numerical expressions from words.

Math 6 is conquering long division with decimals. Students have had to review.

Hopefully we can move forward with our book lessons next week.

Math 7 took a test today on Module 3.

Math 8 also took a test on their Module 3.

Algebra tested, as well, on Chapter 6.

Peace,

Mrs. Sullivan
