

Fifth & Sixth Grade Notes

(and 7/8 Grade Math Notes, too)

January 21, 2021

Dear Families,

The 2nd marking period ended today. Please encourage your student to do their best work in an effort to minimize their need to redo work. We continue MAPS testing for the winter cycle next week.

Conferences are being scheduled. Please email me to let me know if you'd like a virtual conference or if you have a specific day or time that works best. Conference times will be going home next Friday, January 28.

Our class will be attending the Catholic Schools Week Mass at the cathedral in Grand Rapids on Tuesday, February 1. All attending Mass will be required to wear a mask, per diocesan policy. Please return permission slips as soon as possible.

Students took a test on Ancient Egypt. We move to Ancient Greece next as we continue to finish our mummification project.

We will be testing on the Sacrament of Baptism soon.

Next week's vocabulary words are on the back. We continue reading *The Call of the Wild*. We should finish reading next week and then take a few days to complete a final book project.

Math 5 began a unit working with fractions.

Math 6 finished up unit rates and ratios. We will apply what we know to percents.

Math 7 is working with multiplication of integers and equations.

Math 8 is busy determining slope and writing equations of a line.

Algebra is working with polynomials.

Peace,

Mrs. Sullivan
