

Mrs. Sullivan's 5/6 Friday Note

September 12, 2025

Dear Families,

Mr. Sullivan and I will be available on Wednesdays for after school help. If your student plans on staying after, please email one of us by Wednesday morning. Students should come prepared to work on school work. Pick up is in the upper lot at 3pm.

8th Grade would love to see you at our **CAR WASH** fundraiser tomorrow, September 13, from 10am until 1pm.

Simple Solutions - Students will be completing Simple Solutions 13-16 next week. The quiz on Friday will take questions from Simple Solutions 9-12 to give students plenty of opportunity to seek help and make corrections.

MATH 7 - We took a test today, but will still be working with rational numbers.

MATH 6 - We started our second module on ordering decimals, fractions, and mixed numbers.

MATH 5 - We have moved into multiplication. MANY students do not have their multiplication facts memorized. This is very important as they move on in math. Besides inaccurate computation, it takes students longer to complete assignments if they need to constantly refer to a multiplication chart. Please review multiplication facts with your student nightly.

SCIENCE - We are learning about thermal energy.

Peace,

Mrs. Sullivan
