

Mrs. Sullivan's 7/8 Friday Note

September 12, 2025

Dear Families,

Our **CAR WASH** is tomorrow from 10am-1pm! Please have your student arrive by 9:45. I will have donuts and drink boxes for a snack, but hopefully we will be so busy we won't have time to eat! Please bring any old rags or towels for us to use. I will do my best to get them back to you, or I can store them for future endeavors. We have hoses, sprayers, car wash soap, and a couple of great signs.

Mr. Sullivan and I will be available on Wednesdays for after school help. If your student plans on staying after, please email one of us by Wednesday morning. Students should come prepared to work on school work. Pick up is in the upper lot at 3pm.

8th Grade fundraising is going well. In addition to our CAR WASH tomorrow, we have a cookie sale on Wednesday and we have been given a table at the St. Charles Craft Show on Saturday, November 8, 2025. I will need students to man our booth and help sell coffee, cookies, pop, and water. I am also looking for some parents to donate cans of pop and water bottles, or to donate cash or Meijer cards for me to pick up these supplies for the event. People really like to help out enterprising kids, so this is a great opportunity to raise some funds. We will also need student volunteers (*service hours*) to help vendors set up and take down their booths Friday evening, Saturday morning, and Saturday afternoon.

Please sign the yellow permission slip that came home today. Our class will be visiting IM 3rd Kids in Belding to pack shelf stable meals for food insecure students in Montcalm and Ionia counties. I will also need a couple of parent drivers, so if you are available in the morning on October 2, please let me know.

Simple Solutions - Students will be completing Simple Solutions 13-16 next week. The quiz on Friday will take questions from Simple Solutions 9-12 to give students plenty of opportunity to seek help and make corrections.

MATH 7 - We are adding and subtracting positive and negative integers.

MATH 8 - We are working with reductions and enlargements on the coordinate plane.

MATH 9 - We have begun solving equations. Students need to proofread their work because many are dropping negative signs.

SCIENCE - We are learning about Newton's Laws of Motion. We will have a test on Tuesday.

THEOLOGY - We are looking at our social responsibility to our neighbor and society.

Peace,

Mrs. Sullivan
