

Mrs. Sullivan's 7/8 Friday Note

November 7, 2025

Dear Families,

Tomorrow is the day of our inaugural fundraising table at the St. Charles Craft Sale! Hopefully everything runs smoothly for us! Thank you for your donations of supplies and your child's time! Long hair should be tied back in some kind of ponytail or braid.

Monday is Charity Day. We are collecting donations of non-perishable food for the area food pantry. The need for food is great, especially at this time of year.

WEDNESDAY - Homework help for Wednesday, November 12 is cancelled. Please make arrangements for your child to be picked up at the regular dismissal time or signed up for after-school care at the regular dismissal time.

Simple Solutions - Students will be completing Simple Solutions 45-48 next week. The quiz on Friday will take questions from Simple Solutions 41-44. Students should complete corrections to work returned to them for more points.

MATH 7 - We are going back to the beginning modules that we skipped in August dealing with proportions and unit rates.

MATH 8 - We are learning about angle relationships and triangle similarity.

MATH 9 - We are looking at slope-intercept, standard, and point slope forms of linear equations.

SCIENCE - We began exploring Earth's rotation and revolution.

THEOLOGY - We are learning about the Crusades, bubonic plague, and Gothic cathedrals as we travel through AD 1000-1500.

Peace,

Mrs. Sullivan
