

APRIL 24, 2026

Preschool Newsletter

Spring is in full bloom in our classroom! This week, we explored the wonders of growth and changing. We planted grass in small cups and drew silly faces on them-when the grass grows it will look like fun, wacky hair! We also planted lima beans and used a special plant and root viewer to watch them grow up close. Our class is especially excited because we ordered a butterfly kit with real caterpillars. Soon we will observe them shed their skin, form a chrysalis, and transform into beautiful butterflies. To help us understand the amazing process, we created our own butterfly life cycle diagrams using paper plates, lima beans for the egg, and different shaped pasta for each stage.

Our spiritual lesson focused on growing in faith and understanding God's love. We learned that God shows His love through kindness, and we can reflect that love by being kind to others every day.

Save the Date: Friday May 15 from 12:30-1:30. You are invited to join us for our End-of-the-Year Picnic on the upper playground (the big kids playground). Please bring a lunch filled picnic basket and blanket as we enjoy quality time together with our children and families. All siblings are welcome.

Our Kindergarten-ready students are excited to meet Mrs. Hendee and spend the afternoon in the Kindergarten classroom this Mon. April 27.

Many Blessings,
Mrs. Evans, Mrs. Slating, and Mrs. Norton

Learning Objective:

**Literacy
Science
Demonstrates Earth's
Environment**

Important Dates:

- **April 27 Kindergarten Round-Up 12-2 PM**
- **May 15 End of Year Picnic 12:30-1:30 PM**
- **May 22 Last Day of Preschool (Half Day)**
